

UPLIGHTING

To enhance the mood and to put a personal touch to the room, we can include uplighting to the event. This consists of 8-15 evenly placed, portable LED lights that come in 6 colors.

The simple addition of color to the walls enhances the overall experience and makes the room truly your own!

SIX CHOICES OF COLOR

Color is very important. Color is chosen with outmost care, from the dresses to the tables and centerpieces. Having the room follow the same pattern ties it all together for the most complete overall experience. We took pictures of our own, to show you these different choices:*

BLUE

GREEN

ORCHID

AMBER

AQUA

PRISM

**Because the room we used is small, the color fills it all. However, when placed in a larger room, the pillars really stand out without saturating the field of view.*
